

## CSE Consulting Solutions – bundled topic competence for a quick return on investments

In addition to individual solution strategies for demanding challenges, SAP Consulting also offers results that generate individualized solutions from topic related, standardized modules: the SAP Service Solutions. They are the result of many years of project experience with certain processes that are required in various branches. We have developed standards from our know-how and summarized them into adaptable business solutions. We offer you our advice in these areas: SAP Performance, SAP HANA, SAP ERP, SAP BW, SAP BW/4HANA, SAP S/4HANA - it is our common goal to provide you with optimal conceptual advice and best practice.

Our SAP Service Solutions are focal solutions with proven consulting strategies and software modules which we are able to offer you as a “package solution”.

These are the advantages of SAP Consulting Solutions: full cost control, a fixed timeframe as well as Return on Investments (ROI) proven from other projects.

SAP Consulting Solutions are not static products. They are continually developed further and individually adapted. SAP Service Solutions are (among others) available for following areas:

- SAP HANA Performance Optimierung
- SAP HANA Sizing
- SAP Testing
- Technical Documentation
- SAP Service Life Sizing
- SAP Service Performance
- Nearline Storage for mastery of very big data amounts for SAP BW and ERP with column-based databank technology. Lowering of operational costs as data doesn't have to be archived and remains accessible.
- Save on costs and budget and increase your performance through Hot, Warm, Cold, Frozen data organization: with SAP ERP and BW solutions.

We also offer conceptual advice on the following system and architecture areas:

- SAP ERP on HANA
- SAP BW on HANA
- SAP BW/4HANA
- SAP S/4HANA
- SAP SCP Cloud
- SAP HEC
- Microsoft Azure Cloud
- HANA data bank 1.0, 2.0
- Oracle data bank

We are your competent contact in all topics concerning performance, maximal performance, conceptualization and sizing.
